# SRISAKTHI S

Java Developer (Oracle Certified, Java SE 17) | Third-Year B.Tech IT Student
Chennai, Tamil Nadu, India | srisakthiselvam6@gmail.com

## PROFESSIONAL SUMMARY

Third-year B.Tech IT student and Oracle Certified Java SE 17 Professional with hands-on experience building full-stack platforms and data-driven dashboards. Skilled in Java, JavaScript, React/Next.js, and backend integration with FastAPI, PostgreSQL, and MongoDB, with experience in RBAC and authentication systems.

## EDUCATION

**B.Tech, Information Technology** | *Easwari Engineering College, Chennai* 2024 - 2028 (Expected)
CGPA: 8.42 / 10

**HSC, Science Stream** | *Vallalar Matriculation Higher Secondary School, Cuddalore*
Score: 91%

## CERTIFICATIONS

- Oracle Certified Professional: Java SE 17
- Learn Programming in Java - Infosys Springboard

## INTERNSHIP EXPERIENCE

**Software Development Intern** | *Infosys Springboard* 2026

- Developed ITBIS, an insider-threat monitoring platform for enterprise security use cases.
- Built role-based dashboards using Next.js, React, and Tailwind CSS to visualize employee activity and threat indicators.
- Integrated FastAPI, PostgreSQL, and MongoDB to support authentication, employee management, and activity monitoring.
- Implemented Role-Based Access Control (RBAC) and database-backed activity tracking to strengthen platform security.

**Sustainability Intern** | *1M1B (One Million for One Billion)*

- Built a dashboard to analyze and reduce organizational carbon footprint.
- Visualized environmental data to generate sustainability insights.
- Applied data-driven approaches to support eco-friendly decision-making.

## PROJECTS

**AI Fish Monitoring System (AquaAI)**

- Developed an AI-based system to monitor fish health using simulated sensor data.
- Detected anomalies based on oxygen, ammonia, and water quality parameters.
- Designed an interactive dashboard for real-time monitoring.

**Automated Hostel Room Allocation System** | *Java*

- Built a Java application to automate hostel room allocation.
- Implemented allocation logic using Object-Oriented Programming (OOP) and Java Collections.

## TECHNICAL SKILLS

Programming Languages: Java, JavaScript
Web Technologies: HTML, CSS, JavaScript ,React, Next.js
Backend & APIs: FastAPI, Role-Based Access Control (RBAC), Authentication Systems
Databases: PostgreSQL, MongoDB, SQL
Tools & Platforms: Git, GitHub

## ACHIEVEMENTS

- Secured 2nd Place in Ideathon + Hackathon at SMITS.
- Built AquaAI, an AI-based fish monitoring system for real-time anomaly detection.

## LANGUAGES

English, Tamil
